Symptom

This note provides you with an utility class to read data from the Extensión de convenios colectivos (T5E10) table.

This is not a program error, but a new development to provide this functionality to a legal report.

Other Terms

&UTIL; T5E10 (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

This SAP Note is relevant only for Spain.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 28
6.04	HR SP A0
6.00	HR SP D4

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The Clase para lectura de la tabla T5E10 (CL_HRPAYES_T5E10) class has been created, providing the following public methods:

- GET_INSTANCE - Returns an instance of the class.
- READ - Recieves a Clase de convenio colectivo (TRFAR), Área de convenio (TRFGB), Agrupación áreas de personal para regulación por convenio (TRFKZ) and a date. Returns the first entry of the T5E10 table where the fields match and the date is between the begin and end dates of the entry.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	November 16, 2017	Release for customer
3	November 20, 2017	Correction instructions updated. Missing CINC CL_HRPAYES_T5E10=====CCAU object. The solution have to be applied again using SNOTE.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
