

2582814 - CALC: Contribution base does not reach the daily maximum in case of CCC change in months with 31 days

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	19.02.2018
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2582814>

Symptom

You run the Cálculo de nómina española (RPCALCE0) report for an employee with a CCC change in a 31 days month with a payroll split in the last day. The Base de cotización de contingencias comunes (/342) wage type does not reach the maximum daily contribution amount correspondent to the number of days of each payroll split. The SLD bases file generated with this payroll result is rejected by the Spanish Social Insurance.

Other Terms

&CALC - PC00_M04_CALC (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

While the report is distributing the monthly maximum contribution proportionally to each payroll split, the Spanish Social Insurance expects the daily maximum contribution.

The liquidations of each CCC should be treated independently. So, for each CCC, the maximum base accepted will be the daily maximum base multiplied by the number of the days of the split.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 31
6.04	HR SP A3
6.00	HR SP D7

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

The behavior of distributing the monthly maximum contribution base among the splits in case of CCC change in months with 31 days has been disabled.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	February 19, 2017	Note released to customers.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
