

# 2602974 - AFI: FCT segment only being generated when the "FCT para todos los absentismos" parameter is selected

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	21.02.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2602974>

## Symptom

You run the Mensaje de Afiliación (RPCAFIE0) program for an employee that had a definitive leave from the company and the Fechas de Control de Trabajadores (FCT) segment is only generated when the FCT para todos los absentismos(S\_FCTALL) parameter is selected.

## Other Terms

&AFI - PC00\_M04\_MENS\_AFI (for more information, see SAP Note [1071282](#)- CONSULT: List of tags for Spain notes)

## Reason and Prerequisites

The RPCAFIE0 program is currently not checking if the employee has a definitive leave for the generation of the FCT segment, only checking if the S\_FCTALL parameter is selected.

This issue is a side effect caused by the solution delivered by SAP Note [2448690](#) - AFI: error in payroll simulation for FCT segment generation.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 31
6.04	HR SP A3
6.00	HR SP D7

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, the RPCAFIE0 program will check if the employee has a definitive leave or if the S\_FCTALL parameter is selected to generate the FCT segment.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	February 21, 2018	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
