

# 2607069 - CALC: Remove include RPCPAYES\_CALC\_MSG\_HANDLING\_UT from release 6.08

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	21.02.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2607069>

## Symptom

You are in release 6.08 and you have applied a Support Package between HR SP 42 and HR SP 51. After applying SAP Note [2571233](#) - CALC: enabling manual contribution bases with amount 0, an activation error happens in the include RPCPAYES\_CALC\_MSG\_HANDLING\_UT.

## Other Terms

&CALC - PC00\_M04\_CALC (for more information, see SAP Note [1071282](#) - CONSULT: List of tags for Spain notes.)

## Reason and Prerequisites

This issue is a side effect caused by the solution delivered by SAP Note [2571233](#). The include RPCPAYES\_CALC\_MSG\_HANDLING\_UT should not have been delivered in any Support Package. This SAP Note delivers changes in the signature of a method that is called in this include, thus causing the activation error.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 42

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

The include RPCPAYES\_CALC\_MSG\_HANDLING\_UT has been deleted, so the irrelevant activation errors will not happen anymore. As this include only have test code, no productive code will be affected.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	February 21, 2018	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.
2. Apply the manual post-implementation steps.

List of modified objects (manual activities related):

LIMU REPS RPCPAYES\_CALC\_UT

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
