Component	PY-ES (Spain)		

Please find the original document at [https://launchpad.support.sap.com/#/notes/ 2615656](https://launchpad.support.sap.com/#/notes/2615656)

Symptom

You run the Cálculo de nómina española (RPCALCE0) report for an employee with monthly bases when having the Promedio horas extras (SPHEX) value as Dividir entre 365 (2) in the Constantes de nómina (T511k) table, the value of the B.diaría horas extras CP (/346) wage type may have a different value than expected.

Other Terms

&CALC - PC00_M04_CALC (for more information, see SAP Note [1071282](#) - CONSULT: List of tags for Spain notes.)

Reason and Prerequisites

The program was setting the division days depending on their Unidad de tiempo (Unida), and would consider 360 days instead of 365 for monthly employees.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 32
6.04	HR SP A4
6.00	HR SP D8

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the program will always divide by 365 in all employee cases, disregarding their Unida.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be

changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	March 13, 2018	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
