

# 2602331 - AFI:Wrong previous part time coefficient when searching for contract begin date

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	02.04.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2602331>

## Symptom

You run the Mensaje de Afiliación (RPCAFIE0) report for a part time employee with a work coefficient reduction from the beginning of a contract. A wrong Coeficiente tiempo parcial(PES\_TEMPOR) field is reported in the Datos Asociados al Movimiento (DAM) segment.

## Other Terms

&AFI - PC00\_M04\_MENS\_AFI, PC00\_M04\_RESP\_FRA (for more information, see SAP Note [1071282](#))

IT0016; IT0061;

## Reason and Prerequisites

The RPCAFIE0 uses the Inicio de la validez (P0016-BEGDA) field from the Elementos contrato (IT0016) infotype to search for the initial Seguridad Social (ES) (IT0061) infotype and retrieve the part time coefficient. In order to find the part time coefficient from the beginning of the contract, the RPCAFIE0 should use the Inicio contrato (P0016-CTBEG) field whenever is possible to find the right IT0061 infotype.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 33
6.04	HR SP A5
6.00	HR SP D9

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, the RPCAFIE0 report will first try to find the 0061 infotype by the P0016-CTBEG field. If no entry is found, then it will fall back and search using the P0016-BEGDA field.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	April 2, 2018	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

## Software Components

Software Component	Release
SAP_HRCES	600 - 600
SAP_HRCES	604 - 604
SAP_HRCES	608 - 608

## Korrekturanleitungen
