

# 2618279 - CPERSONAL: RPTGENE0 fails when missing description in the T554T table in the language you are logged in

Version	1	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	15.03.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2618279>

## Symptom

You run the Generación del Calendario Personal (E) (RPTGENE0) report for an employee with an absence whose description is not maintained in the T554T table in the language you are logged in. The execution fails because of the missing description, so the calendar is not generated.

## Other Terms

&CPERSONAL (for more information, see SAP Note [1071282](#) - CONSULT: List of tags for Spain notes.)

## Reason and Prerequisites

The T554T table was being read but not used, and its missing description caused an error.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 32
6.04	HR SP A4
6.00	HR SP D8

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

The RE554T form in the LRPPEF30 include and its references in the Rutinas del calendario personal España (LRPPEF10) include were deleted.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
1	March 15, 2018	Pilot release

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

## Software Components

Software Component	Release
SAP_HRCES	600 - 600
SAP_HRCES	604 - 604
SAP_HRCES	608 - 608

## Korrekturanleitungen
