When you run the SLD: fichero de bases (RPC_PAYES_CRETA_BASES) report for an employee that is an artist and has an Incapacidad TemporalProlongada (IT), the concepts Base De Desempleo Cotizacion Empresarial (705) and Base De Fogasa Empresarial (706) are not being generated in the .XML file.

Reason and Prerequisites

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 32
6.04	HR SP A4
6.00	HR SP D8

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the RPC_PAYES_CRETA_BASES report will treat the prolonged absence specially for artists.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.
