

# 2587786 - CONTRAT@: Not updating communication status for multiple basic copy contracts

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	18.01.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2587786>

## Symptom

You run the Comunicación de contratos al SEPE (RPCINEE0) program with the Copia Básica(R\_COPIAB) option selected for an employee with multiple entries in the Elementos contrato (0016) infotype. The RPCINEE0 program is updating the Status comunic.(P0480-STACOC) field only for the first basic copy contract processed for each employee.

## Other Terms

&CONTRAT@ - Transaction (for more information, see SAP Note [1071282](#))

## Reason and Prerequisites

The RPCINEE0 program was creating unnecessary batch input scripts to process multiple contracts for the same employee.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

The source code of the RPCINEE0 program was changed to properly update multiple contracts for the same employee.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be

changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	January 18, 2018	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
