Symptom

When you create or edit an entry in the New Infotype Framework (HR Renewal) of Datos de mensaje AFI (0799) infotype, you can select an option in the Pérdida Beneficios(INDPB) field that is different from '01' and '08' when the Accion(ACCAF) field has the value 'MA', which should not be possible.

Other Terms

&AFI, &PA (for more information, see SAP Note [1071282](#))

HR Renewal.

Reason and Prerequisites

There was no consistency check for the INDPB field.

This SAP Note is relevant only for Spain.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

| Release | Support Package |
|--------------|-----------------|
| EA-HRCES 608 | HR SP 30 |
| EA-HRCES 607 | HR SP 53 |
| EA-HRCES 606 | HR SP 64 |
| EA-HRCES 605 | HR SP 79 |
| EA-HRCES 604 | HR SP A2 |
| EA-HRCES 603 | HR SP B0 |
| EA-HRCES 602 | HR SP B5 |
| EA-HRCES 600 | HR SP D6 |

Solution

If the value on the INDPB field is not consistent with the action, the "Para la acción MA, seleccione el ind. pérdida de beneficios 01 ó 08." (5E 702) warning message is displayed. When creating new entries, the Search Help pop-up for the INDPB field will only display options that are consistent with the ACCAF field.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
