Please find the original document at <https://launchpad.support.sap.com/#/notes/2564310>

## Symptom

You run the Cálculo de nómina española (RPCALCE0) report for an employee in a multi-employment situation, absence and with either the Porcentaje de FOGASA pluriempleados (0061-PLPOR) or Porcentaje de Desempleo pluriempleados (0061-PLPDE) field values equals to 0 in the Seguridad Social (ES) (IT0061) infotype.

The corresponding Base IT FOGASA (/34R) or Base IT desempleo (/34S) wage type is not generated with the absence base.

## Other Terms

&CALC - PC00\_M04\_CALC (for more information, see SAP Note [1071282](#))

## Reason and Prerequisites

The report was checking if both the Fogasa and the Desempleo percentages were filled in the 0061 infotype.

This SAP Note is relevant only for Spain.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

| Release | Support Package |
|---------|-----------------|
| 6.08    | HR SP 31        |
| 6.04    | HR SP A3        |
| 6.00    | HR SP D7        |

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, if the Fogasa percentage is filled in the 0061 infotype, the /34R will be generated. Likewise, if the Desempleo percentage is filled, the /34S will be generated.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

| Version | Date              | Reason                |
|---------|-------------------|-----------------------|
| 2       | February 15, 2018 | Released for Customer |

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

To avoid problems with retroactivity the changes were sheltered with the entry 'NOTE' '02564310' in table T5F99VD. For further information, see SAP Note [515323](#).
