

2571233 - CALC: enabling manual contribution bases with amount 0

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	02.02.2018
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2571233>

Symptom

This note delivers an enhancement to the manual contribution bases, delivered in SAP Note [2447355](#), enabling the customer to use a manual contribution base with Amount (BETRG) equal to 0.

Other Terms

&CALC - PC00_M04_CALC (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

There are some business scenarios where one split has contribution bases, while it should not have any contribution base. This is a limitation in the payroll, and cannot be solved automatically. That is why the manual contribution base equal to 0 is needed to handle some scenarios.

This SAP Note is relevant only for Spain.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 31
6.04	HR SP A3
6.00	HR SP D7

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the customer can set a manual contribution base to 0. In order to do that, create an entry in the Pago complementario (IT0015) infotype for the wage types BC cont.comunes manual (/3MA) and BC cont.profesion.manual (/3MB) (please refer to SAP Note [2447355](#) for more details).

Obs: For technical reasons, the manual contribution bases with value 0 will not be processed if they are created in the Devengos/Deducciones periódicos (IT0014) infotype.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	February 02, 2017	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual pre-implementation steps.

2. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

Manual Activities
