

2596756 - IGA: checkbox Reduc: RI solíc. empleado/despido is being wrongly cleared

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	15.02.2018
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2596756>

Symptom

You run the Cálculo de ingresos gravables anuales (RPIGA0E0) program for the first time in the year and the employees that already have an entry in the Datos fiscales(0062) infotype for January with the Reduc: RI solíc. empleado/despido (Q0062-IRREG_INC_REDUC_REQ) checkbox flagged, have this field wrongly cleared.

Other Terms

&IGA (for more information, see SAP Note [1071282](#))

IT0062;

Reason and Prerequisites

The issue happens because the program should clear the Q0062-IRREG_INC_REDUC_REQ checkbox every time it is creating an entry in the 0062 infotype for the first time in the year. However, the program was failing to identify that there was already an entry in the 0062 infotype for the new year.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 31
6.04	HR SP A3
6.00	HR SP D7

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the RPIGA0E0 program will clear the Q0062-IRREG_INC_REDUC_REQ checkbox only if there is no entry in the 0062 infotype for the year that the program has been executed.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	February 15, 2018	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
