

# 2598162 - SLD SH: Changing infotype period causes duplicated RECORD\_SEQ in HR Renewal

Version	1	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	05.02.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2598162>

## Symptom

This note contains additional screen corrections for the following symptom:

You have two entries in the New Infotype Framework (HR Renewal) of the Gestión de estados (ES)(3393) infotype, both with the same Período para (FOR\_PER\_MONTH and FOR\_PER\_YEAR) and Período En (IN\_PER\_MONTH and IN\_PER\_YEAR) fields and same Numero de Registro(RECORD\_SEQ) field, which should not happen.

For more information, see SAP Note 2596626.

## Other Terms

&SLD, SH (for more information, see SAP Note [1071282](#))

## HR Renewal

## Reason and Prerequisites

The FOR\_PER\_MONTH, FOR\_PER\_YEAR, IN\_PER\_MONTH and IN\_PER\_YEAR fields should not have been possible to modify after the creation of the entry.

This SAP Note is relevant only for Spain.

You have to apply SAP Note 2596626 as prerequisite.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
EA-HRCES 608	HR SP 31
EA-HRCES 607	HR SP 54
EA-HRCES 606	HR SP 65
EA-HRCES 605	HR SP 80

EA-HRCES 604	HR SP A3
EA-HRCES 603	HR SP B1
EA-HRCES 602	HR SP B6
EA-HRCES 600	HR SP D7

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, the FOR\_PER\_MONTH, FOR\_PER\_YEAR, IN\_PER\_MONTH and IN\_PER\_YEAR fields are now uneditable after creation. If you need to edit the period, delete the entry and create a new one with the correct period.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
1	February 05, 2018	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

## Software Components

Software Component	Release
EA-HRCES	600 - 600
EA-HRCES	602 - 602
EA-HRCES	603 - 603
EA-HRCES	604 - 604
EA-HRCES	605 - 605
EA-HRCES	606 - 606
EA-HRCES	607 - 607
EA-HRCES	608 - 608
