Symptom

You edit/display an entry of the Datos fiscales (E) (0062) infotype and a warning message saying "Reduc. en rend. irreg. aplicada en los últimos 5 períodos impositivos (01.01.2017)" is displayed even though the employee does not have any irregular income amount.

Other Terms

&IRPF (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

The system was not checking if there was an irregular income amount before displaying the warning message.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 31
6.04	HR SP A3
6.00	HR SP D7

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the warning message will be displayed only if there is any irregular income amount for the employee.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
4	February 15, 2018	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
