

# 2618831 - PEXTRAS: Missing extra payment after full inactive split

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	23.04.2018
Component	PY-ES ( Spain )		

Please find the original document at [https://launchpad.support.sap.com/#/notes/ 2618831](https://launchpad.support.sap.com/#/notes/2618831)

## Symptom

You run the Cálculo de nómina española (RPCALCE0) report for a employee with a split without active days starting in the first of the month. The extra payments are not kept for the next split with active days.

Example:

#	Begin date	End date	Description
3	24.01.2016	31.12.9999	Rehire with split
2	01.01.2016	23.01.2016	Fire
1	01.01.2014	31.12.2015	Hire

The split 2 will remove all the extra payments from the previous split.

## Other Terms

&PEXTRAS (for more information, see SAP Note [1071282](#) - CONSULT: List of tags for Spain notes.)

Pagas Extras;

## Reason and Prerequisites

The report should always keep the extra payments.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 33
6.04	HR SP A5

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, the RPCALCE0 will check for extra payments entries of the previous period and copy them to the current one.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	April 20, 2018	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

To avoid problems with retroactivity the changes were sheltered with the entry 'NOTE' '02618831' in table T5F99VD. For further information, see SAP Note [515323](#) - CONSULT.: Protección de correcciones.

## Software Components

Software Component	Release
SAP_HRCES	604 - 604
SAP_HRCES	608 - 608

## Korrekturanleitungen
