

2619586 - TC: Wrong sum of /352 for a CCC that collaborates with SS

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	17.04.2018
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2619586>

Symptom

You run the Modelos de cotización para la Seguridad Social (RPCTC0E0) report for an employee that is in a Código de la cuenta de cotización (CCC) that collaborates with the Seguridad Social (SS) defined by the Indicador AT y EP (IATEP) field in Características dependientes del tiempo de CCCs (V_T5E08) view. In this situation, a Elemento de datos Línea de trabajador - Compensación o deducción - Reducciones (EDLCD06) segment is wrongly reported, and also the Empresa IT (/352) wagetype is added to the reported segments.

Other Terms

&TC - PC00_M04_CTCE (for more information, see SAP Note [1071282](#) - CONSULT: List of tags for Spain notes.)

AT/EP; T5E08; Autoaseguradoras; /352; /33E

Reason and Prerequisites

For a CCC that collaborates with SS, no EDLCD06 segment should be reported.

This issue is a side effect caused by the solution delivered by SAP Note [2583069](#) - CALC: /352 not being reported for a CCC that collaborates with SS.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 33
6.04	HR SP A5
6.00	HR SP D9

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

From now on, the report will check if the CCC being processed collaborates with SS and, if a Reducción 03 ATEP Emp (/33E) wagetype value matches with the /352 value, both of them will be cleared.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	April 17, 2018	Released for customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
