## Symptom

You run the Cálculo de nómina española (RPCALCE0) report for an employee that is in a CCC that collaborates with the SS defined by the Indicador AT y EP (IATEP) field in Características dependientes del tiempo de CCCs (V\_T5E08) view. The Empresa IT (/352) wagetype is not being reported.

## Reason and Prerequisites

The /352 should not be added to the Acum.EM.cotiz.Seg.Soc. (/399) wagetype. Because of that, the value was not being reported since SAP note [2496404](#) CALC: Incorrect sum of /399 for a CCC that collaborates with SS.

This issue is a side effect caused by the solution delivered by SAP Note [2496404](#).

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 32
6.04	HR SP A4
6.00	HR SP D8

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, the /352 will be reported, and its value is going to be added to the Reducción 03 ATEP Emp (/33E) wagetype.

So, /399 have the value of /352 added but /33E will subtract the same value.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).

To avoid problems with retroactivity the changes were sheltered with the entry 'NOTE' '02583069' in table T5F99VD. For further information, see SAP Note [515323](#).
