

# 2563300 - CALC: Corrections to SAP\_PAYSLIP\_ES3 HR Form

Version	3	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	02.03.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2563300>

## Symptom

When you print the standard Recibo de nómina con las bases de cotización - España (SAP\_PAYSLIP\_ES3) payslip for an employee in a period that has retroactive runs, the form is not printed correctly.

## Other Terms

&CALC - PC00\_M04\_CALC (for more information, see SAP Note [1071282](#))

PAYSLIP; HRFORMS; SFP

## Reason and Prerequisites

The payslip layout had some incorrect data bindings that would cause the printing program to not iterate through all periods.

Also, the global variables created in the interface weren't prepared for a retroactive run.

This SAP Note is relevant only for Spain.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
EA-HRCES 608	HR SP 32
EA-HRCES 607	HR SP 55
EA-HRCES 606	HR SP 66
EA-HRCES 605	HR SP 81
EA-HRCES 604	HR SP A4

(For more information, click on "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

Overview of the changes that were made to the SAP\_PAYSLIP\_ES3:

HRForms

Two InfoStars were changed.

- The InfoStar CONT\_COM\_TO\_BASE is now using the value from CCT1 (Base total contingencias comunes). This wagetype was created and is a cumulation of the watypes /302, /342 and /3VG.
- The InfoStar CONT\_PROF is now using the value from CPT1 (Base total contingencias profesionales). This wagetype was created and is a cumulation of the watypes /303, /343 and /3VH.

SAP\_PAYSLIP\_ES3 PDF Form:

Both pages are now using the same data binding.

- Node STAR\_PAYROLL\_PERIOD: Data binding Changed from \$.STAR\_PAYROLL\_PERIOD.DATA[\*] to \$.STAR\_PAYROLL\_PERIOD.
- Node DATA: Changed from none to DATA[\*].
- Node Page2: The parent of the node was "STAR\_PAYROLL\_PERIOD" and now it is "DATA". This change make it possible for the two pages of the form be in the same DATA index. Also, we had to rebind almost every value contained in the subnodes of "Page2" to match the new parent DATA.

Since we have changed some global variables, these data bindings were also changed:

- The use of the GV\_CCTOT\_BASE was replaced by the STAR.CONT\_COM\_TO\_BASE.PAY\_AMOUNT. The value comes from the CCT1 cumulated in InfoStar CONT\_COM\_TO\_BASE.
- The use of the GV\_CPALL\_BASE was replaced by the STAR.CONT\_PROF.PAY\_AMOUNT. The value comes from the CPT1 cumulated in InfoStar CONT\_PROF.
- The use of GV\_ATYEP\_AMOUNT and GV\_ATYEP\_RATE were replaced by GT\_ATYEP\_CUMULATION.PAY\_AMOUNT and GT\_ATYEP\_CUMULATION.PAY\_RATE, respectively.

SAP\_PAYSLIP\_ES3 PDF Interface:

Now, there is only one form routine that cumulates the values for the AT y EP watypes. This had to be maintained in a global variable since we are not able to cumulate rates in a cumulation wagetype in the HRForms. This form cumulates the amount and rates of the /352 and /353 into the GT\_ATYEP\_CUMULATION.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
3	March 02, 2017	SAP Note released for customers.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual implementation steps.

List of created (C) / modified (M) objects (manual activities related):

R3TR SFPF PYXXFO\_SAP\_PAYSLIP\_ES3 (M)  
R3TR SFPI PYXXFO\_SAP\_PAYSLIP\_ES3 (M)  
R3TR HRFO SAP\_PAYSLIP\_ES3 (M)

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
