

2594192 - SLD: Incorrect statistic of employees without differences in SLD Files

Version	1	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	24.01.2018
Component	PY-ES (Spain)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2594192>

Symptom

The statistic of employees without differences (node Empleados sin diferencias of the technical log) is incorrectly computed when you run the SLD: procesamiento de ficheros(RPC_PAYES_CRETA_FILES) report to process a Fichero de cálculosfile.

Other Terms

&SLD - PC00_M04_CRETA_FILES (for more information, see SAP Note [1071282](#))

Reason and Prerequisites

In order to compute the number of employees without differences, it is necessary to retrieve the number of employees with no payroll result processed by the report. This last statistic was being incorrectly computed.

This issue is a side effect caused by the solution delivered by SAP Note 2582308.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in support.sap.com/maintenance-schedule)

Solution

By means of retrieving correctly the number of employees with no payroll result, the statistic of employees without differences is generated now correctly.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be

changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
1	January 24, 2018	Note released to customers

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
