

# 2582308 - SLD: Differences shown for employees without payroll results

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	23.01.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2582308>

## Symptom

You run the SLD: procesamiento de ficheros(RPC\_PAYES\_CRETA\_FILES) report to process a Fichero de cálculos. Then, for an employee with no payroll result for the in period set in the selection screen, the technical log considers this as an employee with differences, comparing the values of the Fichero de cálculos XML with nothing (since there's no payroll result to be compared with).

## Other Terms

&SLD - PC00\_M04\_CRETA\_FILES (for more information, see SAP Note [1071282](#))

## Reason and Prerequisites

Although there's a warning message to indicate such cases, the comparison between the payroll and the file provided should not be performed.

You have to apply SAP Note 2582675 as prerequisite.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

After applying this SAP Note, there will be no more comparison between the payroll and the file if the employee has no payroll result. Besides, to indicate such cases, a statistics log node has been created with the label Empleados sin resultado de nómina.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Apply the manual pre-implementation steps.
2. Use Note Assistant (SNOTE) to implement the correction instructions.

LIMU REPT RPC\_PAYES\_CRETA\_FILES (M)

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
