

# 2592249 - SLD: L13 intervals are being splitted incorrectly when an allowance starts during the VND

Version	2	Type	SAP Note
Language	Inglés	Master Language	Inglés
Priority	Correction with medium priority	Category	Correction of legal function
Release Status	Released for Customer	Released On	31.01.2018
Component	PY-ES ( Spain )		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2592249>

## Symptom

You run the SLD: fichero de bases (RPC\_PAYES\_CRETA\_BASES) report for an employee with Vacaciones no disfrutadas (VND) period. If the employee starts an allowance during the VND period, the VND interval is being splitted incorrectly when the allowance starts. This causes the L13 file to be rejected by the Social Insurance.

## Other Terms

&SLD - PC00\_M04\_CRETA\_BASES (for more information, see SAP Note [1071282](#))

## Reason and Prerequisites

The report is splitting the L13 intervals by the allowance periods, however the report should only split the VND intervals if the allowance started before the firing date (finiquito) that generated the VND.

This issue is a side effect caused by the solution delivered by SAP Note 2524054.

Good to know: when you install an SAP Note, some prerequisites might be required. The prerequisites are SAP Notes that were already released and that change the same context of the current SAP Note. So, even if these prerequisites are not necessarily related to the symptom of the current SAP Note, you should implement them due to technical reasons.

The following Support Package level is the minimum prerequisite:

Release	Support Package
6.08	HR SP 30
6.04	HR SP A2
6.00	HR SP D6

(For more information, click "HR Support Packages Schedule" in [support.sap.com/maintenance-schedule](https://support.sap.com/maintenance-schedule))

## Solution

From now on, the report will not split the VND intervals if the allowance started after the firing date that generated the VND.

Good to know: during the piloting phase, this SAP Note may be updated and versioned depending on feedback from pilot customers. After this SAP Note changes to status Released for Customer, it will not be changed anymore, unless there is a very specific situation that demands changes. In this case, a reason for the change will be specified in the SAP Note.

Version	Date	Reason
2	January 31, 2018	Released for Customer

As a general rule, SAP recommends that you install a solution by applying a Support Package. However, if you need to install the solution earlier, proceed as follows:

1. Use Note Assistant (SNOTE) to implement the correction instructions.

You can find more information about the Note Assistant in SAP Service Marketplace, under [SAP Note Assistant](#).
